## Board Musings

By Rich Armando

As the last days of February will be gone by the time you read this, that means we will only have 51 days +/- till our first cruise night of the 2023 season. Hopefully the spring will be as mild as the winter has been. It would be great to start off on a high note and continue right where we left off at the end of the 2022 cruise season. With Patriots Place and Gillette Stadium booking as many events as they can, there is a possibility of some of our cruise nights being cancelled due to a last minute booking. This is why every night is important if the club wants to stay on track for what was raised last season for the local food pantries and also our work force grants awarded to local regional technical school graduates enrolled in either auto repair or auto body programs.

Once again John Buchanan and Fred Tierney did their usual great job of signing up all of our sponsors for this year. From what I understand there was almost a 100% renewal from last year's list and there where a few new ones added. They both make it look effortless but we all know there is a lot of work they put into making it such a success.

Thanks to Dennis DiBiasio and John Griffin for stepping up and volunteering to manage the clubs new web site. We now finally have our own standalone web site that was set up by a friend of mine and my own personal IT guy, Louis. After a few months of working on it he now has it to where Dennis and John can take it over and put their own personal touches on it. One thing I would like to see is somewhat of a tech fly out that may have different tech ideas that would be of interest to other car collectors that visits our web site. If you have something you would like to see on the site let Dennis or John know about it to see if it can be done. If you have not yet seen it please go to [masscruisers.com](http://masscruisers.com) and check it out.

I hope the members who are attending our monthly meetings are enjoying them as we are trying to do something special every month. So far we have had our yearly catered business meeting in January and a guest speaker at several of the meetings. I hope you found them interesting. In February Andrew and Gary Sousa, owners of the Detail Garage in Swansea Ma., talked about keeping your car clean and shiny. The club was invited to their shop in March to actually see some of what they talked about in action. John B is working on another speaker for the March meeting. Stay tuned for more information. In the past we normally forgo a guest speaker during the cruise season but if you have any ideas for a speaker at a future meeting let us know so we can schedule it for the fall/winter of 2023/2024.

## Editor's Musing

By John Buchanan EDITORIAL

At the February Mass Assoc. of Auto Clubs Board meeting we learned the good news from M.A.A.C.'s Lobbyist, Jack Bartley, that Governor Charlie Baker signed HB4722 into law in the 11th hour of his final tenure. HB4722, an Act relative to the sale of old metals and vehicle catalytic converters was sponsored by Representative Steven Howitt (R ) 4<sup>th</sup> Bristol (Norton/Rehoboth/Seekonk/Swansea) . Those of us familiar with how difficult it is moving a bill through the Massachusetts two-year General Court session when facing competition from more than 8,000 other bills recognize the importance of having an experienced lobbyist assisting in ushering a bill to the finish line. In the last few weeks of the 192nd General Court, Jack Bartley formed a coalition with law enforcement, auto dealers, auto manufacturers and insurance companies to support passage of HB4722. This bill requires every person licensed to purchase, sell, barter or deal in old metals to record all transactions. The record will include the transaction date, name, address, telephone number and signature of the person transacting the sale or receipt; a photo of the person or their photo I.D.; the license plate & vehicle V.I.N. used to transport when applicable; description, photo of the old metals; copy of any legal ownership documents and the price paid or received. Records must be retained for 2 years from the transaction date for old metals and 3 years for catalytic converters. It also includes violation penalties including fines, imprisonment and community service.

Although there have been waves of thefts that included copper pipe, electric wiring and bronze statuary over the years when those scrap metal prices rose, the surge in thefts of vulnerable high value catalytic converters from parked vehicles and the ease of converting those thefts to cash payouts without any records became epidemic in recent years. Our thanks goes to Rep. Steven Howitt for persisting in getting a legislative solution in place with HB4722 and to Jack Bartley for facilitating the forces necessary to help move Rep. Howitt's bill along to the Governor for his signature. Hopefully surrounding states will follow.

## 7<sup>th</sup> Annual 2023 Gathering of the Clubs

By John Buchanan

It's February in New England and that Gobbler's Knob, Pennsylvania Groundhog named Phil saw his shadow resulting in his Punxsutawney keepers proclaiming 6 more weeks of winter. Not impressed with Phil's prognosticating record in recent years, Massachusetts started using our own groundhog named Ms. G and she didn't see her shadow at the Drumlin Farm in nearby Lincoln, and that bode well weather-wise for the 7th Annual Gathering of Clubs. Hosted this year by the local Roadmen Car Club at a new venue, the Westford Regency Inn. Clubs, like last year's hosts, the Goonz Car Club Ireland, and the Torquer's Montreal Car Club members that attend each year and a new one, Devils on Wheels from Ottawa Canada were able to benefit from a continuing string of mild weather days at this year's Gathering.

There were 250 members representing 21 clubs at this year's gathering. Our own half dozen Mass Cruisers were represented by Mike & Lorna Rabbitt, Dave & Diane Thornton, myself and William Ellis who, also as President of the Mass. Assoc. of Auto Clubs (M.A.A.C. <https://massautoclubs.org/>) spoke on their behalf shared a table. One of the main features of the Gathering, other than the partying that takes place, is an opportunity for each of the clubs to get up and talk about their upcoming events for the coming year and during this part of the gathering participate in good natured banter that does get a bit on the salty side.

The live band at this year's Gathering was the Johnny Cash tribute band "Counterfeit Cash" and although there weren't many getting up on the dance floor, listening to all those famous Cash hits are also available in their CD "A Night in the Sun" recorded at the Memphis Sun Studio in 2019.

*continued on*

Roadmen member Hot Rods and Customs provided the welcome, Counterfeit Cash provided the music, and 21 car clubs inside the Westford Regency Inn provided the camaraderie for the 7th Annual Gathering of Clubs.

# 7<sup>th</sup> Annual 2023 Gathering of the Clubs

*Continued from Page 4*

One feature of these annual Gatherings are some of the creative presentations given to the host club by some of the attending clubs in appreciation for all the work and effort it takes for the Roadmen Car Club to pull off a successful event. And that is followed, in turn, with the announcement of next year's host club, In this case it is the Push Rods from Waltham,

**2024 HOST CLUB**

Passing of the HOST GAVEL above from the 2023 Roadmen to the 2024 Push Rods Car Club of Waltham.

## Guest Speakers Detail Garage Swansea

by John Buchanan

We are getting back into the swing of inviting our Bass Pro Shops Cruise sponsors to be guest speakers at our monthly meetings. This February 21<sup>st</sup> meeting was with brothers Andrew and Gary Sousa, owners of their popular Auto Detailing Supplies franchise Detail Garage located at 207 Swansea Mall Drive on Rte. 118 off U.S. Route 6. Why is it popular? What sets them apart from other detail supply stores, in addition to having a great Chemical Guys product line are their wildly popular monthly 11 AM—2 PM last-Sunday-of-the-month cruise-ins that typically attract several hundred cars and trucks. Because of their popularity, they were pressed by customers and followers to start their first 2023 cruise on March 26. So, it appears we can look forward to this month of March opening up with a couple of swap meets, the March 5th annual MARCOM flea market at the Holmes Transportation Barn in Norfolk and ending with the Detail Garage's opening season cruise-in on Sunday March 26.

Much of the discussion at the meeting surrounded questions from members about the current trend of using ceramic coatings to protect their vehicle's paint finish due to its reputation for needing a minimum of cleaning effort to remove dirt, resistance against swirl marks and preventing waterspotting due to the coating's hydrophilic properties. The **PROS** are: **1.** Easy to clean; **2.** U.V. protection from paint deterioration; **3.** less damage from minor scratches and swirl marks; **4.** Oh, and that GLOSSY look for up to six years that looks like it was just waxed; **5.** provides protection against some chemicals & acids. The **CONS** are: **1.** Doesn't provide protection against rock chips & heavy scratches; **2.** doesn't provide 100% protection against water spots; **3.** ceramic coatings aren't cheap and may require significant prep correction before applying; **4.** Paint defects will be sealed with no way to hide them after coating and it does magnify them just as it does for a beautiful paint finish. **5.** the coating requires curing time for two or three weeks to ensure maximum protection so it has to stay garaged or covered to prevent dirt, bugs, bird droppings or pollen sticking to the surface. **6.** when properly applied, the coating doesn't peel off when it ages which is a PRO, it just slowly gets thinner and disappears so it is hard to determine when it has completely worn off. When all was said and done, my question was, what about carnauba waxes? Andrew responded he still prefers waxing over ceramic coatings despite the additional time and effort required to maintain them to the same level that ceramic coatings provide.

Although Detail Garage Swansea wants to become your go-to source for cleaning, detailing supplies from Chemical Guys and provide technical advice they do not provide detailing or finishing services but, they do offer monthly hands-on training classes for both beginners and professional detailers. They also provide on-site demonstrations during their monthly Sunday cruises and offered to use one of our club member's cars as demo at one of the upcoming cruise-ins. Who wants to volunteer? Thank you Andrew and Gary.

*continued on Page 7*

## Guest Speakers Detail Garage Swansea

Continued from Page 6

Detail Garage Swansea hosts a last Sunday of the month coffee cruise-in from 11 AM—2 PM, March through October. This cruise can attract several hundred cars and trucks that range from antique and high end super cars to decked out tri-axle tractors. Their opening 2023 cruise is scheduled for Sunday March 26 in the parking lots fronting their store at 207 Swansea Mall Drive on Rte. 118 off U.S. Rte. 6 in Swansea across from the former Swansea Mall.
