Board Musings

By Rich Armando

As we get ready to close out another month, we also move closer to the fall season which means the loss of daylight. If you continue to drive your car up till the first snow or ice storm of the season, then you most likely will be driving when it is dark out. Lighting on your vehicle is very important for you to see down the road and be seen by others. This story started last year during our trip to Lake George. Glen Brayman was behind me in his 41 Ford when I noticed how bright his headlights were. When I asked him what type of lights they were and where he got them, he told me they are LED's which he bought from Rodtiques in Hanover. When I got back home, I never made the time to contact Dave who is the owner till a few weeks ago. After driving home from the New Bedford cruise-in event that night in the Chevelle it reminded me just how bad original sealed beam lights of the 60's and 70's compared to modern lighting. The following day I called Dave and, long-story-short, he made up a set of high and low beam lights for the Chevelle. After installing them and trying them out one night I was sold on the improvement LED's made, that I ordered a set for the Mustang. What a huge improvement they are illuminating the road in front of you. I know a lot of you already have LED's but if you are still using sealed beam headlights, I recommend you look into some LED's as you will not be disappointed. At the same time don't forget the back of your car. If your standard 1157 bulbs are hard to see either with your running lights on or when you apply the brakes, then LED's are also the answer to that problem. I already had a set on the Stang but when I added them to the Chevelle there was a day and night difference, all right I guess pun intended. This is not a promotion for any manufacturer or vendor. All I wanted to do is get you thinking about what your lights are like on your car and do you need to upgrade.

Congratulations to John Buchanan on the sale of "Diamond Lil". I was surprised to hear of the sale but I understand for whatever the reason sometimes a change is needed. Rumor has it that he may be looking to replace the 31 Dodge. If this is true, then happy hunting John.

Our next cruise night is September 7th. A lot of members will be in Lake George attending the Adirondack Nationals. If you don't regularly work the cruise night, hopefully you can find some time on the 7th to pitch in and help your fellow club members since we will be shorthanded for cruise. Any amount of time you can give is always appreciated.

Editor's Musing

By John Buchanan EDITORIAL

Anyone who has owned a street rod for 24 years or more; adding features, improving performance and replacing worn out or failed parts throughout its aging life, is always facing the question, do I continue the evolution or let it go to the next caretaker who will put their own spin on the old girl? I'm only 8 years younger than my 1931 Dodge Brothers Resto Street Rod "Diamond Lil" and its been a blast owning her. But she's now returned back to her home state of Texas to a new owner who also owns a stock 1931 Dodge Brothers stable mate and who has plans to continue to preserve her street rod heritage. There was little of Lil's original Texas street rod heritage left after bringing her up to New England back in 1999 thanks to our Massachusetts based community of automotive professional craftsmen that included the late Chick Brignolo's "Brignolo's Chassis" total street rod chassis & drive train rebuild, Rocky Silvestri's "Rocky's Auto Body" custom touches and paint finish, Mark Crichton's "Mark's Upholstering" interior, Alex Oliviera art deco era "Real Pinstriping" and Bob Hines "Robert's Automotive" providing maintenance, repair & rebuild skills that kept her running in tip top shape. Also, an unusual feature included with the sale was a complementing "CRUIZN Massachusetts with Diamond Lil" pinball machine creatively restored by Brian Soares "Gameroom Pinball".

What's next? The fun will be the hunt searching for the next one. After the hunt reality sets in, fixing, replacing and changing what needs to be done to make it measure up to its predecessor.

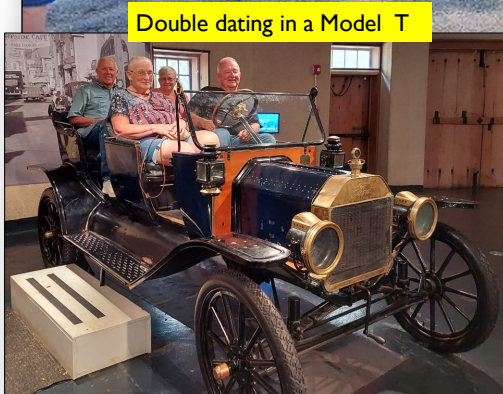

Hagerty Caffeine & Cars at Heritage Museums

By John Buchanan

Some of our club members got together to cruise on down to Sandwich Saturday morning of August 4 for the annual Hagerty Caffeine & Cars event at the Heritage Museums & Gardens. Hagerty is one of our Bass Pro Shops cruise Major Sponsors so we were also able to use this event to present Michael Sakkas with major sponsor thank you plaque. Our 10 club member cars rallied in the Sagamore Inn parking lot on Rte. 6A parking lot where club member Mike Brillo and his son Patrick led our cruise procession for the remaining 2 miles into the Heritage parking lots that were set up for the Caffeine & Coffee event which had plenty of caffeine and fruit cups available for everyone. Mike also used his Heritage Museum membership for some members to enjoy the Automobile Museum as his guests and in the afternoon, hosted a two-hour cruise of the Bass River estuary in his boat from South Dennis to South Yarmouth and Nantucket Sound while I cruised Route 6 to North Truro for lunch with club members John & Nancy Bloom. On my return trip back home, I stopped at the Cape Cod Classics Club Cruise in Dennis where Mike, who is also an active member of the CCCC, and his son Patrick operate the club's Hot Wheels Ultimate Drag Strip to the delight of kids attending the cruise. This will become one of those annual events club members will want to repeat again.

August Rambling

By Larry Nyborn

With our July 27 cruise being canceled due to the impending late afternoon rains and running into Gillette stadium event conflicts with our originally planned August Cruise dates by a Patriots—Texans Thursday night pre-season game and Bruce Springsteen concert, we had to scramble to come up with some different events to fill the void. One was holding our monthly meeting at the Ice Cream Machine in Cumberland, R.I. and it rained on that one too despite being under cover enjoying their delicious ice cream. Another was a Wednesday pizza party held at the White Barn on Rte. 1A in Wrentham on Wednesday Aug 16th that I set up so club members could shop at the farm stand for fruits, vegetables, honey, etc and have some delicious pizza baked in the farm's pizza oven using their farm fresh ingredients along with fresh squeezed lemonade. The event ran from 5:00PM to 7:30PM with overcast skies & then rain at 7:00PM; fortunately club members were dining under a tent. Rick White stopped by to buy some fresh corn for his family...attendees were Steve Huntington, Bob Eisenhower, Lou Valentine, John & Amy Nunez, Frank & Neringa Bryant, Mark & Kathy Magnon, my wife Barbara,

grandkids Joe @ Annabelle and my mother-in-law Anna.

August monthly meeting called to order: "Blueberry ice cream hot fudge Sundae"

Open up those pizza boxes and give us a look...yummm

August 17 Bass Pro Shops Cruise Night

By John Buchanan

We were fortunate to get our only August 17 cruise night date in with only an overcast sky and threatening showers after all the rainouts and occasional tornado or two but at least it was a comfortable temperature in the 70's for August. There was an excellent turnout of featured car club owners from the Factory Five Forum and British Motor Cars of New England. Saint Antony's Food Pantry from Stoughton was on hand to collect your non-perishable food donations and also receive their \$1,500 check share from previous \$\$ donations. With the July rain cancelled cruise preventing the scheduled Wrentham Food Pantry to collect food donations, one of their volunteers came to receive their \$1,500 check as well. This year's response for monetary donations for our five area food pantries has been phenomenal and is much needed as more families are relying on them to overcome the inflationary rise in food costs.

There was a good showing of featured club members and their cars from the Factory Five Forum and British Motorcars of New England. Additionally we also enjoy watching other clubs driving into our cruise together to

park and display their cars to the delight of the thousands of enthusiasts and spectators that come each cruise to experience the best cruise-in car show experience New England has to offer.

Selected as one of two Vintage Motorsports cruise night winners, the story of Peter Sturdevant's beautifully restored 1954 Austin Healey 100 BN-1 roadster is documented in a two-part 2018 Hemmings series titled "Restoring the Parts Car: Austin-Healey 100" which you can search on Google.

Phil Gardner in England had what was left from a parts Austin-Healey 160880 he imported from the U.S.A. in 1995 to restore a 1956 Austin Healey 100 BN2 for the 50th anniversary of the marque in 2002. That's when Peter who attended the event and Phil hatched a plan to restore Phil's parts hulk rather than scrap it. Peter would travel to England hauling the needed Healey parts as luggage in addition to shipping the body parts too big to carry. He then spent long weekends in England with Phil on what he calls the shared ownership "coalition project". Somewhere along this project, Peter bought out Phil's share and, after having to repair the A-H 100 after a rear end collision during a test run in England it finally made it home to Massachusetts in 2007. We hear auction houses touting about a vehicle's rarity, original condition, number matching, racing or celebrity provenance being important factors

that set high valuations to potential buyers, but it seems resurrection from the scrap heap to become a quality appreciative build recognized by its designer Gerry Coker should also be highly valued as well.

We had two Vintage Motorsports sponsored cruise winners tonight due to the rained cancelled July 27 cruise. Denny McKay purchased his 1938 Ford Cabriolet off his late Florida friend George Mitchell's widow 3 ½ years ago, in part to help her out financially at the time, but to also become this beautifully crafted hot rod's latest caretaker. Since then, Denny has redone the motor, changed to the American Racing wheels and updated some of the instrument gauges in the dash. One of the street rod's unique features is when the hood is opened, the side hood is removable allowing open access to work on the engine. Also remarkable is the car's iconic "Bullitt" Green paint that was applied 15 years ago still retaining a newly finished appearance. Thanks, Denny, for bringing her to our August 17 cruise.

A visit planned back in July was cancelled due to rain, but Mass Cruisers friends and family successfully visited Waushakum Live Steamers club in Holliston on Saturday, August 26th during their open house weekend. Although rain the day before caused some early angst, it turned out Mother Nature was good to us (and to the Steamers) for our visit. Our group included Steve Huntington, his daughter and two grandsons; Bob and Ann Hines and their grandson; John Buchanan and his great granddaughter; Bob and Johanna Okerholm along with their daughter and her family; Steve and Maureen Fernald; and Dave and me. The president of the Waushakum Live Steamers, Jim O'Neil, was easy to work with and had spots for our classic cars set up and greeted us as we arrived.

The Steamers have open house events about once a month through the good weather months. Their membership might be working on their model steamer or giving rides on their steamer with train whistles tooting! The kids, of course, love it – but there wasn't an adult there who wasn't smiling from ear to ear! A great treat to be taken for a journey into their forested mile long train routes; experiencing their scale model buildings, bridges and tunnels; chuckling at their cut out bears, yeti, M & M signalmen and forest creatures; read the hobo signage; and feel like you have to duck when speeding under their covered bridge or tunnel! Every Waushakum member was gracious, talented, and wonderfully enthusiastic.

Most everyone except Bob O , Bob H, yours truly & Dave T. made it in the group picture

I'm behind the engineer and that's Grandpa Steve H. riding herd on the young-un's.
