## Board Musings

By Rich Armando

If you're familiar with the singer Meat Loaf and his song named "Two out of Three Ain't Bad" on his "Bat out Of Hell" album or, even if you're not familiar with this rock love Ballard, here are the lyrics that I'm referring to:

"I want you (I want you), I need you (I need you),  
But there ain't no way I'm ever gonna love you,  
Now don't feel sad (don't feel sad),  
Cause two out of three ain't bad"

but in the life of a Mass Cruiser two out of three has a different ring to it. At this point in time we had 3 cruise nights scheduled and so far two have been cancelled due to rain with us only holding one cruise night which was extremely successful. So, in our case, **two out of three is not good.**

Just a few days ago the Patriots preseason schedule was released and our August 8<sup>th</sup> cruise will also be cancelled due to a Patriots home game. Oh well, such is life at Patriot Place in New England. While we have arguably one of the best cruise venues East of the Mississippi, I suppose we shouldn't complain as other parts of the country are dealing with violent storms spawning an unprecedented number destructive tornados making our situation appear minuscule. Wait, what? National weather service 2024 hurricane season prediction: June 1 to November 30, an **85% chance of an above-normal season**, a 10% chance of a near-normal season and a 5% chance of a below-normal season, **OH MY!**

Rick White has informed the club that all 3 workforce grants have been distributed to the schools in time for their awards night. Thanks to Rick and Joe Renaud for a job well done. It's not easy selling 50/50 tickets to people who most likely have already donated to the food pantry as they drive in.

On Saturday May 18<sup>th</sup> we had another great tour of a private car collection. After a stop at Westgate Performance Parts we drove to Al Santos garage. Al opened the doors to the club to view his 30+/- car collection, made up of mostly "gasser" style hot rods. Talking with Al you felt like you knew him for many years, not just a few hours. This was set up once again by John Buchanan through one of our Bass Pro Shops Cruise sponsors, Bob Fouquette of Big Wheel Towing & Recovery. Thank you John for doing this. In the past few months the club has had the privilege to tour 3 private car collections. If anyone has something in mind that would be of interest to the club let me know about it so we can plan it and do it. Let's stay active during the cruise season and not just work the cruise nights, **weather permitting.**

## 2024 MASS CRUISERS WORKFORCE GRANTS

By Rick White Charity Coordinator

THE MASS CRUISERS AUTOMOBILE CLUB is pleased to announce the issuance of the 2024 MASS CRUISERS AUTOMOBILE CLUB \$700 WORKFORCE GRANTS TO THE FOLLOWING GRADUATING RECIPIENTS:

**NORFOLK AGRICULTURAL: Corey Martin** >> Diesel & Mechanical Technology Program

**BLUE HILLS REGIONAL TECH: Orandon L. De Oliveira** >> Automotive Technology Program

**SOUTHEASTERN REGIONAL TECH: Samuel Yearwood** >> Automotive/Diesel Technology Program

The MASS CRUISERS AUTOMOBILE CLUB WORKFORCE GRANT is a flexible grant to aid a graduating student of financial need that is determined by the school to be used by the student for further education or preparation for entry into the automotive service and repair industry. This grant may be used for any related automotive work force readiness. It includes but is not limited to: tool purchase, industry licensing, furthering education, books, transportation, or other related approved needs to further their career.

## TOOLS 4 KIDS PROGRAM

Our Mass Cruisers "TOOLS 4 KIDS" program was quite successful in its first year as we collected 3 crates of donated automotive tools to be donated to local automotive vocational students. These basic used tools are start up tools for students going out on Co-op and into the automotive service industry. I was pleased to get a significant donations from attending cruisers and our members. If you or anyone you know has extra tools that are just cluttering your toolbox, we can use them. We collect them at the cruise trailer and pick up large lots. Condition, brand and type doesn't matter. They'll all get a second life and help kids starting out.

WE THANK YOU FOR YOUR PAST AND CONTINUING SUPPORT AT OUR BASS PRO CRUISES

# May 2 Bass Pro Shops Cruise

By John Buchanan

Oh well, rain prevented our April 18 Bass Pro Shops cruise season opener from happening, but Mother Nature smiled on our Thursday May 2 cruise date and well over a thousand cruise cars were able to find their way to Patriot Place in Foxborough, MA.; it couldn't have been any better.

One new addition this year is a revival of the Patriot Place courtesy shuttle van with six stops that will be operating from 4 PM until 9 PM. The first "**STOP 1**" is at our Mass Cruisers cruise car entrance crosswalk (shown in picture below); **STOP 2 - Bass Pro Shops**; **STOP 3—Olive Garden**; **STOP 4—Wormtown Brewery**; **STOP 5—Bar Louie**; **STOP 6—Six String Grill**. Look for the signs to wait for the van to be shuttled to the South and North Market sponsored stops and return back to the cruise.

We have a new large thermometer sign at the cruise entrance to display this year's progress on surpassing last year's \$31,000 collection for the five area food pantries in addition to the more than 9 tons of non-perishable food. \$1 donation allows the food pantries to purchase \$20 of food from the Boston area food bank.

The 50-50 proceeds will be funding tool grants that are increased \$400 to \$700 this year and given to graduating seniors from the participating area Technical/Vocational High Schools. Also, we are still collecting your old or duplicate tools that will be given to these students. They can be dropped off at our club trailer.

See Marie at the club trailer to get your 2024 Cruise Night Tee Shirt in your favorite color.

The Patriot Place Courtesy Shuttle is back for your convenience with Mike your favorite driver at the wheel.

## May 2 Cruise Winner 1959 Chrysler 300E Coupe

By John Buchanan

One of the two cars selected at the May 2 Cruise by the team of Marie Armando & Diane Reizovic was Ed Finn's black 1966 Chrysler 330 Convertible. When asked how long he owned the car, Ed said 3 years and when asked about its history he said it was a customer of his who had restored it and when he couldn't pay his snow plowing bill, offered the car as payment. Ed said it turned out to be a good deal for him because this car is more fun to go for ice cream with his wife than it was with the 1973 Chevy Vega that he had been driving. The Chrysler 300 high performance luxury letter series ended with the 300L in 1965 when they introduced these 300 non-letter series in 1966. The letter series would not re-appear until 1998 with the 300M. This unlettered 300 is no slouch though with a big block 440 V8 putting out 365 HP and 3-speed TorqueFlite transmission with a console mounted tachometer, Ed's convertible is outfitted in black leather interior and also comes with factory air conditioning, but for cruising it was a top down drive to Foxborough.

## May 2 Cruise Winner 1966 Chrysler 300 Convertible

By John Buchanan

Dave Larsen has previously refused our cruiser award honor for his Radiant Red 1959 Chrysler 300E Coupe stating, "let someone else be selected". It finally took the cruise judging team of Diane Thornton & Lorna Rabbitt, a professed lover of these old Chrysler letter cars, to convince Dave to become one of the two cruise cars selected at the May 2 cruise. Two cars were selected for today's cruise due to the rained-out April 18 season opening cruise. Dave, who hails from Millis, has owned this rare letter car for 12 years. Of the 550 300E Coupes built in 1959, 118 are known to have survived and Dave's is one particularly nice 300E Coupe and is driven regularly to area cruises and car shows garnering its share of awards along the way. In addition to the car's striking red paint, wide white wall tires and swept rear wing style fenders, there are other hidden gems in this car that get our enthusiast juices flowing. Under the hood sits Chrysler's iconic wedge 413 cu. in./380 HP V8 with dual 4 bbl Carter Carburetors and Chrysler 3 speed TorqueFlite automatic transmission with push button shift on the dashboard. Top speed was 132 mph and could do 0-60 mph in 7.8 sec. & 0 - ¼ mi. in 15.7 sec @ 91 mph, not too shabby for a big heavy luxury car even today. Dave's 300E also has the optional swivel front leather bucket seats for easy enter and exit from the car, truly a unique feature of the early Chrysler automobiles.

# Wilbraham Hill Climb & Car Show

by John Buchanan

The Annual Wilbraham Hill Climb organized by STONEWALL Insurance Group's Jeff DeMarey and his Springfield to Boston Foundation added a car show for 2024 which our club participated in for the first time. The revival of this 1908 historic one mile long hill climb on the Monson Road in Wilbraham has become a must attend event for pre and post WWII historic race car owners including well known "Chasing Classic Cars" TV series personality Wayne Carini who, this year, was competing with his restored 1958 Stanguellini Monoposto Formula Junior. Although club member participation was low for our first year attending which translated in an event scouting mission for Bob & Ann Hines and myself. We were also fortunate to be parked in the area between the food trucks and craft tents with a short one block walk to the hill climb itself. I believe based on our thumbs way up experience enjoying the cruise and show car parking on Main Street along with the ambience at the Monson Road base hill climb start which allows close up access to participating race cars and drivers is what will make this a must attend event in coming years.

Wayne Carine pictured below works on setting up a GoPro camera on the windshield of his 1958 Stanguellini Monoposto Formula Jr. car.

Vintage race cars of all types and years line up at the base of Monson Road to race to the top of that one mile long hill that has a 23 degree rise.

We were parked along Main Street with other show cars and could watch the race cars, having finished their race up the Hill, return back to the Monson Road START line to give it another timed run to the top.

# Seekonk Speedway Show & Go Car Show

by John Buchanan

We were blessed with another great weather Saturday for the 8 AM May Annual Seekonk Speedway Show & Go Car being held on the track's opening racing season weekend that begins Sunday. The 250 Show Car Registrations were filled by 10 AM with later arrivals parked as spectators adjacent to the show car lanes. Along with the car show, participants and spectators are also able to enjoy an auto parts swap meet, watch the race car teams on the track performing their test and tune laps and, before the best of show trophy awards, watch a dozen or more car owners participate in 100 foot drags on the track for this year's bragging rights. It was another fun filled Show & Go Car Show for all including our own club members who look forward each year to help the Seekonk Speedway Team with the show car parking and judging.

2024 Best of Show winner is a restored 1962 Plymouth Savoy 383 Max Wedge factory built Super Stock

Around noontime, race teams getting ready for the opening racing season on Sunday bring their cars and trucks out for test laps on the track which is part of this show's experience for both show car owners and spectators

The 250 Car Show Registrations were filled by 10 AM again this year with later arrivals parked in adjacent parking rows in the main lot fronting U.S. Route 6.

# IMPA SPRING BRAKE

by Bob Walton

I attended an event sponsored by the International Motor Press Association called Spring Brake this May where I had the opportunity to drive more than a dozen new vehicles provided by the auto manufacturers. The one I found the most unusual was the latest product from Honda called the "Motocompacto". This miniscule product in Japan is meant to get people from their train station stops to their place of work or business, or other places where cars don't fit or are not welcome. The impetus for this "vehicle" was major Japanese cities like Tokyo (10 million), Yokohama (4 million) and Osaka (3 million) which relies heavily on public transportation, has no free parking and what parking does exist, is very expensive or exclusive. The Motocompacto in its folded state, is slightly larger than a brief case and weighs just forty-one pounds. This is about equal to the lightest weight foldable ebike available in the U.S. Unfolded, it can take one passenger as far as seven miles at a maximum speed of fifteen miles per hour. The seat is tiny, but comfortable. Power to the front wheel electric motor is controlled by a small lever operated by the right thumb. Your left hand activates the single, rear wheel brake with a hand grip such as is found on most bicycles. Near one's left thumb is a very polite "ding, dong" bell. It has a small but effective kickstand. There are "pegs" for your feet. It took me only a minute or so to get used to handling this machine. This product is not for everyone but may be perfect for some. For example, race teams can use these to get around the vast expanses of racetracks. The flat sides of the Motocompacto are intentionally left blank so teams, corporations, or individuals can apply their own graphics. It is my understanding that these will be available literally "over the counter" at the parts department of Honda dealers for \$995!

# Santos Garage Tour #4

by John Buchanan

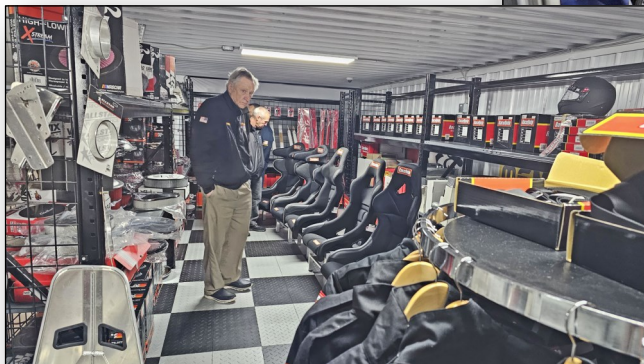

Our fourth Garage tour over the past few weeks was to go see the Al Santos Gasser Collection, but we began it with a Rich Armando suggested stop at Westgate Performance in East Freetown where we were greeted by a pair of friendly Golden Retrievers named Ollie & Ruben. Owner Milton Westgate answered questions about the extensive performance parts on display that gearheads love to drool over. Only thing missing are those super market style hand carry shopping baskets and carts.

It was then off to Berkley and Al Santos huge garage filled with his growing collection of straight axel gasser era race and muscle cars. *Continued on Page 11*

# Santos Garage Tour #4

by John Buchanan

Al Santos is retired from the recycling business that his son Eric now operates in Taunton, but it is still pretty much a family operation as we learned at this year's Seekonk Speedway Show & Go Car Show. Santos Recycling is a major sponsor at Seekonk and they had a vendor display along with Al's 1955 Chevy Gasser next to our own club's set up which picked up an award at the Car Show.. We were blown away by the size of Al's garage and the setup which allows him to not only have a private office area but also an entertaining area with tall pub tables and stools that allows you to look over most of the main collection while being surrounded with photos, awards and memorabilia associated with the cars. I counted around 28 plus one motorcycle inside the building, there were two outside when we arrived, and there are another 8 somewhere else, because that was the number Al said he had as of that day. The work area in the rear of the garage has the tools and four lifts, one being the work lift and three adjacent being used to store a Willys gasser, street rod and a Ford pickup. We really enjoyed seeing all these beautiful Gassers and are grateful for Al's hospitality.

Of the 38 performance cars and trucks in Al Santos collection, his Berkley garage and mancave office are home to about 28 plus one motorcycle by my count with most registered and ready to hit the road for some fun seat time.

John Buchanan presents the Mass Cruisers Host Thank You Plaque to Al Santos who was the gracious host of our final spring Garage Tour series.
