Board Musings

By Rich Armando

Even with morning rain, heat and humidity at our last cruise on July 11, it turned out to be O.K.. Although the turnout was lighter than we normally experience it was still a good turnout, some 600–700 cars. It was also good to see Michael and Lorna Rabbitt's daughter Jeanette at the cruise night. She was up from Kentucky visiting for a few days and what better way to spend some time with her parents than to come to our cruise night. Now that's dedication from the whole family. Jeanette was asked to join her parents in selecting two favorite cruise cars to receive their Vintage Motorsports sponsored cruise winner awards.

Our charity of the night was the AMVETS Post 51 of Randolph. As always you can depend on veterans to get the job done. Our contact Lou could not attend to help as he just had surgery to repair a broken hip he had suffered. The word was put out that there better be a lot of veterans in attendance to help with the 50-50. Around a dozen Vets showed up to lend a hand and the results were excellent. With a lower than normal turnout they were able to collect \$864 which is a good amount as our food pantry donations usually cut into what 50/50 proceeds we collect for the charity of the night. What made this even more special was, instead of splitting the 50/50 to the AMVETS and the winner, the winning ticket holder gave back all to the veterans. I don't know who the winner was, but thank you for your generosity. I've been told what makes this a special night for the AMVETS is that all of the proceeds go directly to the Veteran residents at the VA hospital in Brockton. They are treated with events like an ice cream social or other onsite events they attend to try and give these patients a few hours of enjoyment. None of this goes into a general fund where it can be spent on red tape or bureaucracy. A job well done.

A few days ago I was notified by Patriot Place that our August 22nd cruise night will have to be rescheduled due to an extremely busy week for the stadium. It seems like there are events going on August 21, 23, 24, and 25 so staffing would not be available on the 22nd. Patriot Place has offered us August 29th, one week later as a makeup date which we have agreed to. I hope you can rearrange your schedule to attend this cruise night.

Once again, everyone attending the Downtown New Bedford '50's cruise night, as in the past, was a very enjoyable evening. There were plenty of cars to look at, 5 live bands and several DJ's "spinning" your favorite tunes throughout the Union Street area and, to top it all off, the weather was near perfect. A few members had car issues, but that can sometime happen. It was great to see fellow club members stick around to lend a hand to try and correct the problems. Unfortunately it was something that could not be fixed that night so a ramp truck was called. What happened is exactly what I tell members who do not want to drive their cars far for fear of a break down. When you attend a car event with members and anyone has an issue with their cars, you will not be left alone. When you see fellow member Al Provost, thank him for taking the time to set up cones to secure an area reserved for the Mass Cruisers. Thank you Al.

Editor's Musing

By John Buchanan EDITORIAL

BUMMER! Our July 25 Bass Pro Shops cruise was rained out, the third so far in 2024. To top it off, we won't be hosting a Thursday Bass Pro Shops cruise at Patriot Place until August 29. And that date was a last minute reschedule change because the original scheduled August 22 cruise date could not be supported due to the resource squeeze resulting from Pink's Wednesday August 21 "Summer Carnival Tour" and the big Friday August 23 through 25 Kenny Chesney & Zac Brown Band "Sun Goes Down" Tour at Gillette Stadium. Of course, we expect at least one Thursday night Patriot Game conflict at Gillette and our scheduled August 8 cruise fell victim to that. Of our originally 2024 planned 15 cruise nights at Patriot Place, we've experienced 3 weather related cancellations 2 Gillette event cancellations and one reschedule date through the first 9 cruises. We have asked Patriot Place if they have any open Thursday nights in September and October to possibly pick up another one or two nights to make up what we have lost to this point.

MAD, #63 1961 April Showers Issue

JULY 11 CRUISE WINNER FACTORY FIVE MK-4

by John Buchanan

As you walk around John Webster's Factory Five MK-4 Roadster, one of the two Vintage Motorsports cruise winners at our July 11 cruise, you notice details that are unique to this 12-month build-project unlike many of the Factory Five MK series roadsters that regularly attend our cruise. Most obvious is the splash/siphon guard surrounding the polished aluminum Shelby Cobra Style Gas Cap and its 289 kit location behind the passenger seat. Then you look over to the Petty roll bar and notice the speedo is also mounted on the passenger side along with a replica Shelby American COBRA tag. You now understand that John, not only built his first MK-4 Roadster, he made it a tribute replica of the famous 1965 era Carroll Shelby 289 Cobra's along with their added FIA optional rule features like the trunk dimples for a required 24" x 16" x 8" suitcase and drilled bungee cord holes to keep the poorly latched trunk from flying open when racing. Shelby only built 5 USRRC/FIA 289's for racing with only two know to exit today, making this MK-4 very unique. However, not wanting an older drive train for reliability and performance, John chose the venerable Boss 302 V8 that dyno's out at 355 HP & 346 Ft. Lb. torque and is backed by a Tremec T-5 tranny & mid-shift kit, Moser rear w. 3.55 gears & Koni coil overs with 3-link rear and double A arms up front. He also added heated seat kits for those cool New England morning drives to car shows. Nicely done John.

Notable features like the Petty roll bar, gas cap splash siphon guard, suitcase trunk dimples & bungee cord tie down highlight John's Factory Five MK-4 as a tribute 1965 Shelby Cobra USRRC/FIA 289.

JULY 11 CRUISE WINNER 1952 FORD RANCH WAGON

CONTINUED FROM Page 4

I don't think there were too many that missed seeing Scott Morrell wheeling into our July 11 Bass Pro Shops cruise with their Milford Auto Sales recent Barrett Jackson California Auction acquisition, a combination 1952 Ford Mainline Ranch Wagon towing its rare matching Kompac Sportsman Trailer. As a result, it was picked for one of our two Vintage Motorsports cruiser awards. The trailer has it all for the outdoorsman. It can sleep two and has a tailgate galley area that houses a 5.4 cubic foot ice refrigerator, a portable gas grille, and an 8-gallon water tank. And the most striking of all, the trailer's roof is its upside down fully functional 12-foot-long fiberglass boat, that when removed has a canvas top roof. Although missing from this package, it originally came with a 3 hp Johnson outboard motor that folded to fit into a space-saving suitcase. Because the list price for the trailer in 1952 was advertised for about the same price as Ford's first year lower cost all steel boded ranch wagon, only 15 were built. This one spent most of its life stored indoors, so it's in mint condition sporting the same Meadowbrook Green and Sungate Ivory paint as the wagon. If you have any interest in learning more about this unique vehicle, you can see it at Milford Auto Sales in Hopedale or look on the Hemmings Marketplace where more photos are posted.

This rare Kompac Sportsman matching camping trailer with its first year all steel Ford Mainline Ranch Wagon was the perfect cruise vehicle to make it to a Bass Pro Shops cruise night.

JULY 11 CRUISE WINNER 1928 MAXIM FIRE ENGINE

by John Buchanan

The Maxim Motor Company in Middleborough, MA specialized in manufacturing fire fighting equipment from its founding in 1914 by its then fire chief, Carlton Maxim, who thought he could build a better fire engine than the town had recently purchased. Since that beginning, Maxim produced over 3,000 fire engines up until it ended operations in 1989. A side note, in 2009 Maxim was re-established as a brand of custom fire apparatus by North Attleborough's Greenwood Emergency Vehicles. The nearby town of Stoughton, MA purchased a new 1928 Maxim pumper fire engine and put it into service up until 1956. During the 2020 pandemic recovery, Joe Mokrisky, President of the Stoughton Historical Society, was able to secure a grant to have Gaspar's Automotive Restoration in Manchester, CT, restore their Engine #2 over a two-year period and, having just gotten it back two months ago, Joe was able to bring it to our July 11 cruise to show it with the Rhode Island Antique Fire Apparatus Society display that Richard Quetta organizes every year.

Here's something good following the 2020 Pandemic, this 1928 Maxim Pumper restoration project thanks to the Stoughton Historical Society obtaining a Massachusetts Capital Preservation Funding grant along with Town meeting approval in 2021 and completed by Gaspar's Automotive Restoration in Connecticut followed by town unveiling in June 2024.

[Stoughton Massachusetts 1928 Maxim fire engine final reveal. \(youtube.com\)](#)

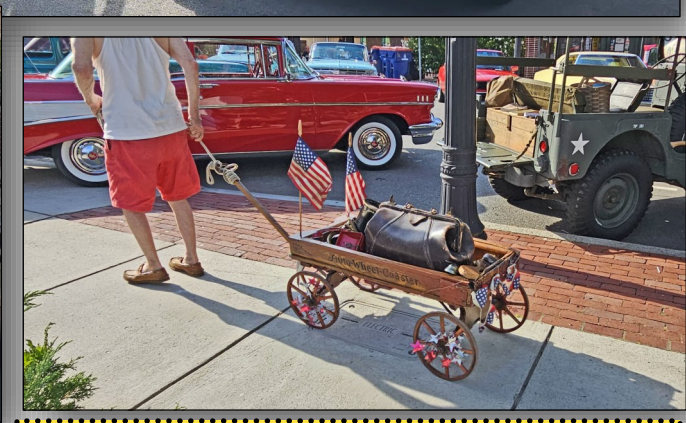

Cruisin' at the speed of fun NEW BEDFORD 50'S NIGHT

by John Buchanan

Every 3rd Thursday in July, the tradition of hosting a 1950's era cruise-in car show event in downtown New Bedford harkening back to those days when teens used to drive back and forth through their hometown streets on the big shopping night blasting out their favorite AM radio station's latest Rock & Roll tunes. Those shopping nights downtown suffered when shopping malls arrived in the 1970's. In 1990, a downtown merchant named Joe Jesus recruited other fellow business owners and the city to host an annual nostalgic cruise-in with D.J.'s and live bands. Joe died in 2019 and, with the 2020 pandemic, so did its annual 50's night, that is, until 2022 when the widow of a regular 50's night participant of the cruise, that would attract hundreds of classic cars and hot rods and thousands of spectators, stepped up and offered to fund it's revival. To be sure this event will continue into the future, several of the local car clubs are collecting a \$10 donation from the show car participants, a nominal amount when there are at least 3 D.J.'s and five live bands entertaining everyone from 6 to 9 PM. This year the cruise was expanded down the entire length of Union Street, from 6th Street to Rte. 18, experiencing the largest turnouts due to perfect weather according to Bob Bramwell, President of the Cuz's Car Club. The Mass Cruisers also enjoyed reserved parking along Union Street at Wings Court.

Club members relaxing in Wings Court while their cars are parked close by along Union Street

There were some dozen or so Mass Cruisers cars parked along Union Street, with Kevin Rushlow's 1975 Cadillac El Dorado (above), Rich & Marie Armando's 1968 Chevelle (above that) and Joe Renaud's 1956 custom Chevy pickup truck (above right)

You never know what will come rolling down Union Street at the annual New Bedford 50's, "Joe Jesus Tribute" cruise in car show. Above is a vintage wooden Auto Wheel Coaster wagon filled with a collection of vintage stuff.

WENTWORTH LEOPARD RACING CAR SHOW

by John Buchanan

The Wentworth Institute SAE Leopard Racing Club members conduct an annual car show at their Huntington Avenue Campus each July. Although the show isn't heavily promoted, a few of our club members, some former alumni like myself, like to attend each year to show support for the club's Baja Race Car build project. Also, Herb Connors, the Wentworth Engineering School Lab Director, likes to bring some of the SAE club members to our Bass Pro Shops spring cruise. Although there were only two of us attending this year's show, John Ricker with his Mount Washington "Climb to the Clouds" racing 1986 Porsche 944 Turbo and me with my 12 year old great grandson Brad in the '91 Mustang 7-Up edition convertible, both cars came away with trophies for Best Race Car and Best Ford.

The Society of Automotive Engineers (SAE) Baja club at Wentworth is about eight years old with over 30 active members ranging from freshmen to seniors and from mechanical engineering to construction management majors. Their members have a passion for cars, trucks, motorcycles, and the challenge of designing and building a prototype of an all-weather, rugged, single-seat, off-road recreational vehicle intended for sale to the nonprofessional weekend off-road enthusiast. They compete nationally with as many as 60 to 100 other college clubs.

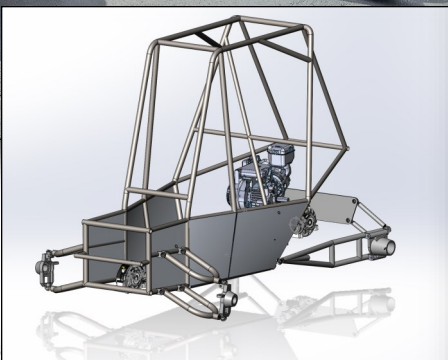

The annual car show allows the SAE Leopard Racing Club to showcase their current SAE Baja Race Car design that will be competing in the September 2024 SAE Baja competition in Michigan. Here's a YouTube link of the showing the 2023 SAE Baja competition that was held in Ohio that highlights the annual event's scope and intensity among the competing teams. [Baja SAE Williamsport](#) They are also looking forward to a

newly created Formula Electric team, which is planning on being competition ready for the 2025 season. We'll look forward to seeing them again next July.

From a 3-D model chassis design to complete build, Wentworth SAE Leopard Racing Club members spend a couple of hours, two late afternoons each week, during the year getting their single seat off-road four-wheel drive ready to compete annually each year against 60-100 other college SAE Racing Clubs.

John Ricker's Mount Washington "RACE TO THE CLOUDS" prepared Porsche Turbo was a hit with the Wentworth SAE Leopard Racing Club members.

My 12 year old great grandson, Brad & John Ricker hold their trophies for Best Ford and Best Race Car.

Cruisin' at the speed of fun TOOLS 4 KIDS: SOCKET-2-ME

by Rick White

Like all of our charity efforts it's hard to collect tool donations for our TOOLS 4 KIDS program when our cruises are cancelled. Despite these setbacks we've continued our push for giving a second life to unneeded back up tools. While sorting and arranging tools into sets I've noticed no ratchet wrenches or sockets have come in this year. So, SOCKET-TO-ME. Rather than dump a bucket of sockets into the abyss of donations to our supported automotive tech students, we sort and arrange socket sets with the purchase socket rails. Brands don't matter but a complete sized set to be upgraded later is our goal. Will they remember our donations to the abyss or a usable starter set? Ratchet wrenches are few and far between. Not to mention metric . So SOCKET-TO -ME!!!!

SEMA ACTION NETWORK

by John Buchanan

The SEMA Action Network (SAN) was formed in 1997 to unite vehicle clubs and enthusiasts with members of the specialty auto parts industry as a political voice for the hobby. As the Massachusetts 193rd General Court ended its 2023–2024 formal session in July without any legislative action seen on bills beneficial nor on bills that could prove harmful to our hobby, it is also a good time to check the pulse of legislative activity across the country using the SEMA Action Network website [Home | SEMA ACTION NETWORK \(semasan.com\)](http://Home | SEMA ACTION NETWORK (semasan.com)) to learn what actions affecting the hobby in other states could possibly work their way into our own state's legislative process when the 194th General Court convenes in January 2025. California usually provides the model by which other states will soon follow.

- A warning shot across our bow occurred on October 9, 1993 when, as part of their strategies to achieve 100% zero emissions by 2035, California Gov. Gavin Newsom signed a law, AB1346, that will effectively ban the sale of gas-powered small off-road engines — spark-ignited engines rated at or below 25 hp. The bill directs the California Air Resources Board (CARB) to ban the sale of new small off-road engines used in equipment which includes generators, lawn equipment, and other small off-road engine equipment.
- Seventeen states have adopted California's emissions standards over the past 20 plus years and nine states have recently passed laws and/or resolutions rejecting government deciding what technology American consumers must purchase. Virginia is the first state to untangle itself from California's emissions standards and EV mandates while Connecticut, Maine, New Jersey, Ohio, Louisiana, Georgia, Kentucky & Kansas were also submitting legislation to prevent the California 2035 100% zero emissions strategy from being adopted or allowing vehicle choice by states and not by government mandate.
- California legalized "cruising" in 2023 and other states which had previously followed California's lead that allowed communities to ban or restrict "cruising", were also attempting to undo the ban.
- Maine was attempting to increase from 25 years to 35 years the definition of an antique vehicle.

So, as the EV evolution and zero emissions strategies nationally continue overshadow our collector cars as well as our daily drivers and lawn mowers, we have to carefully monitor our own state's General Court.
