**Board Musings**

By Rich Armando

If I didn't see it with my own two eyes I wouldn't have believed it. The Mass Cruisers had two cruise nights in a row with perfect weather. Numbers for both nights were strong. The food pantry, 50/50 and car count are something the club can be proud of. Again I would like to thank the members who show up and work the night. A majority show up at noon and stay to the end with others drifting in as the hours pass. You know what's coming and probably tired of hearing this but we can use more help. I know everyone has busy schedules but surely you can put some time aside every other week to lend a hand. I don't expect you to work the 8 hours that some members put in but any amount of time is appreciated. Even showing up close to the end of the cruise you can help breaking down the club's trailer and helping collect the cones. It was suggested at the last meeting that before each cruise night we send out a reminder about the upcoming cruise and help is needed. Is this really necessary. Working the cruise night can be rewarding. The good that the club does for the different charities that we support can only be accomplished through a lot of member participation. I'm sure I can speak for everyone who works these nights that there isn't one night that goes by without a spectator or car participant who thanks you and the club for putting on such a great cruise night. Come be a part of what everyone in the hobby is talking about.

I would like to say, keep all of these cruise ideas coming in but unfortunately I haven't heard from anyone. Do you have any ideas that you think the club would like to do as a group? If so let me know. What more can the board do to generate more interest in the club. We would like to know. It's not too early to come up with an idea for a guest speaker during the fall and winter monthly meetings. John B is already working on a speaker who is an expert in tire design and manufacturing as a speaker. John introduced Chris Donovan, Sullivan Tire Quality Administrator, to me at the last cruise night and with just talking with him for a few minutes I learned something. Tire manufacturers must have manufacture date codes on their tires but do not have a tire expiration date as many of us have been led to believe. Also you cannot be denied an inspection sticker because of having "old" tires on your car, only for not having enough tread thickness or visible signs of degradation. The meeting Chris speaks at should be very informative.

After my rant about needing more help to lighten the load at our cruise night I would like to thank Bob Hines three grandchildren who arrived around noon time and stayed the whole night helping out wherever needed.

The Mass Cruisers have established junior memberships for young enthusiasts that want to participate at our events, like Cruise Director Bob Hines three grandkids shown above, and also shown with club member Kelly Hines in the club's golf cart (left). Although junior members do not have to be club family members they do need to have an active club member sponsor. See Lou Valentine for more information about club junior membership.

JUNE 13 M.A.A.C. MEETING

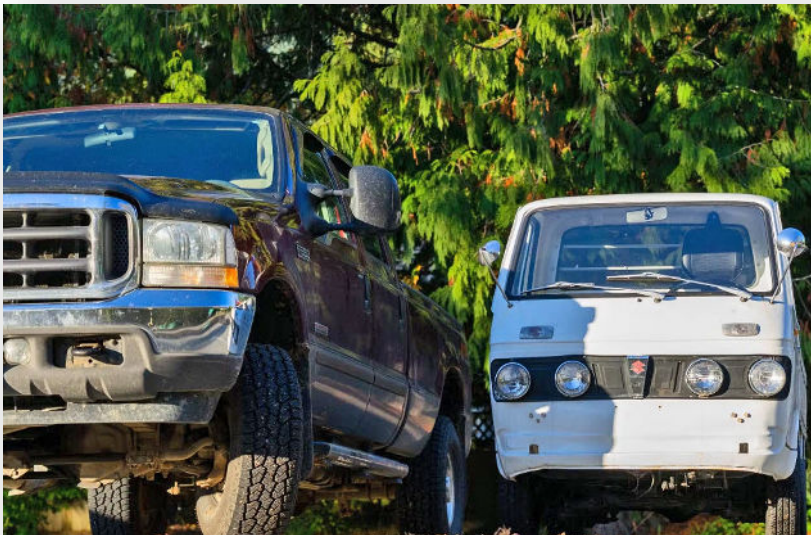

by John Buchanan

Having had the Bass Pro Shops Conservation Room reserved for the June 13 Massachusetts Association of Auto Clubs Spring/Summer meeting being pre-empted for a Bass Pro Shops activity, M.A.A.C. President William Ellis set up a tent outdoors in the shade of the south end of Lot 16 at the Bass Pro Shops cruise. The attending M.A.A.C. Board members and club representatives brought their own event folding chairs and seemed to settle in and enjoy the beautiful weather for this much delayed Spring/Summer annual meeting which was needed to execute the formal business of electing the 2024 officers and Board of Directors. Being the final year of the 193rd General Court which formally ends July 31, 2024, all the pending legislative bills M.A.A.C. has been following were discussed to determine if there were any bills of interest that could be passed with an assist from M.A.A.C.'s lobbyist who will be contacted for his assessment. All bills of interest along with M.A.A.C.'s position noted can be seen at [Bills of Interest – Massachusetts Association of Auto Clubs \(massautoclubs.org\)](https://www.massautoclubs.org)

The one bill discussed that may have the best chance of being passed before the General court formal session ends is the U.S. 1, 6 & 20 Historic Route designation which has no opposition but has been in the Bills in Third reading awaiting to be sent to the House floor for a vote. The new Chairman for the Bills in Third Reading was contacted to see if M.A.A.C. can meet and discuss this bill as well as others of interest.

Another newly identified issue with registering 25 year and older vehicles was generating a lot of chatter at the M.A.A.C. meeting was also discussed. Reports that the MA RMV has been quietly refusing to register the growing number of 1990 era KEI Japanese trucks and vans, also known as *kei-jidōsha* class of light vehicles, that are becoming very popular with auto hobbyists. This is not just a Massachusetts-only-happening as reports that neighboring Rhode Island has been contacting previous owners of legally imported and subsequently registered KEI trucks to have had their registrations revoked and were asking owners to return their plates. There is a lot of confusing information about what is really happening in Massachusetts and what the reasons for denying registrations are. We will keep you posted on the M.A.A.C. website as more vetted information is available.

The M.A.A.C. Officers and Board of Directors (shown below) remain the same for 2024:

William Ellis—(Audi Club) President
 Dean Zwicker—(Old Colony Model T) Vice President
 Dennis Newman—(Sham Rods) Secretary
 Doug Linden—(Minuteman Model A) Treasurer
BOARD MEMBERS:
 John Buchanan (Mass. Cruisers)
 Alan Harris (Executive Automotive Society)
 Jon Rabin (Mass. Miata Club)
 John Viera (Fairlane)
 Lou Zadra (MARCOM)
 Tom Yoder (Midstate Antique) Newsletter Editor

import mini Japanese KEI trucks and vans, like the one shown above next to a Ford pickup, have statutory size and engine displacement limits (1.6L) in two and four wheel drive configurations that, because of their vehicle length restrictions are usually built as "cab overs" to maximize load carrying capability with 6 ft. beds. As the price of American brand trucks keeps rising along with their used counterparts, these 25 year and older minis have been imported into the U.S. with very few restrictions resulting in some states prohibiting their use on interstate highways while others are beginning to refuse registering them.

June 13 & 27 Bass Pro Shops Cruises

by John Buchanan

WOW! We were finally able to host two consecutive Bass Pro Shops cruises without weather or Gillette event conflicts and the participation by the collector car community was awesome. At the cruise entrance, you'll see a new Food Pantry sign with a thermometer displaying your \$\$\$ donations progress toward an ambitious 2024 goal to exceed the 2023 \$31,000 collected. We have been running into challenges each cruise having to dispose of 30-40% of the non-perishable food donations

that are at or past their expiration dates, in damaged packaging or simply a non desirable food for normal American diets. We encourage cash donations, 100% going to the five local area food pantries, that allow stocking their shelves with needed perishable and non-perishable food and sundries from the Boston Area Food Bank distribution center at an advantageous \$1 purchasing of \$20 equivalent items.

We experienced a tremendous turnout of cars from the British and Bay State Corvair car clubs on June 13 and the New England Chapters of the Thunderbird and Ford Falcon Car Clubs on June 27. We hope the July weather continues to be kind to us as June has.

British Car Club (above) and Bay State Corvairs (left) had an excellent showing of the car club members and cars at the June

A familiar sight at each cruise, is our D.J., Bruce Palmer arriving in one of his collector cars. His 1959 Plymouth Station Wagon has ample room in the back for the speakers, generator and other gear required to bring us background music and make those all important announcements of what's happening at Patriot Place.

June 13 Cruise Winner: 1949 Ford F1

by John Buchanan

Jon Vanloon bought his 1949 Ford F1 pickup 30 years ago from a friend who originally planned to salvage the bed for his own project 1950 Ford F1 but had let the '49 linger in the background. Jon began the long process of restoring and building it in his one car garage with his friends and cousins, one being Billy who is a body man and is pictured here ridding shotgun in the pickup to attend his first Bass Pro cruise.

Jon drove the F1 around for 15 years in primer which was an old school practice back in the day before having his cousin finally paint it with its current striking Audi Papaya Orange color just two months ago. The truck, now 99.9% finished, is powered by a GM 468 (.060 over 454) with a 700 R4 tranny and Jag XJ6 rear end fitted with 3.73 Auburn gear set and inboard rear disc brakes. She rides on a '73 Camaro front clip with 15-6-inch Radir Tri-Ribb front and 15-8 rear wheels shod with Firestone wide white radials. The white oak bed is sealed with many coats of Min-wax Helmsman Urethane, and with a careful eye, you'll be able to notice details like hidden smoothed fender mount bolts, gas filler located in the truck bed, frenched recessed taillights, and its subtly louvered hood that make this truck tonight's worthy Vintage Motorsports selection.

June 13 Cruise Winner: 1955 Chevy Nomad

CONTINUED FROM Page 6

One of the two June 13 Vintage Motorsports selections is Greg Asselin's 1955 Chevrolet Nomad Station Wagon. Originally from California, it was being rebuilt as a Pro Touring Resto Rod by a Denton Texas doctor for the June 2004 Hot Rod Power Tour from Arlington, Texas to Green Bay, Wisconsin. After completing the Power Tour, Greg negotiated with the good doctor and brought this beauty up to New England where he has since added his own touches to the Ford Grey & Silver painted Nomad that is sporting custom grey leather upholstered Mazda seating interior. He's upgraded the power plant with a 350 Ram Jet PFI / 700 R4 tranny & 3.50 Jaguar Xj6 rear end and added Jim Meyer independent front suspension to provide disc brakes for the 15-6 & 15-8 wheels and tires. Additionally, Greg was able to display the Nomad outside the GM Detroit Headquarters for their 50th Anniversary celebration of the iconic 1955 Chevrolet in 2005. Not one to be showing up regularly at area car show to collect trophies, it was pure luck tonight's judging team of Mark and Cathy Magno were able to spot the Nomad and present Greg with a Vintage Motorsports award plaque for his gorgeous 1955 Chevy Nomad, the first year for these iconic sporty station wagons.

June 27 Cruise Winner: 1969 AMC AMX SS

by John Buchanan

Ed Invaldi's 1969 AMX SS, selected to receive the June 27 Vintage Motorsports Cruise Award, has owned it since 1976. He originally restored it to factory spec in the mid-1980's and kept it like that until the late 1990's then put it in storage during his family raising years until pulling it out for a father-son RestoRod project with his oldest son Luke in 2008. Unfortunately, Luke passed away as the project got underway, but Ed continued the project as a tribute in his honor. The original AMX muscle era 390 V8 was shipped out to expert AMC race engine builder Barry Allen in Glen Daniel, WV to turn it into a 407cu. in. 650 HP proven high performance winner and then coupled it with a Tremec-600 5 speed tranny and narrowed Ford 9-inch rear with 3.73 gears. The transformation of the original suspension, stock wheels, and fiberglass hood was all handled by Halls Custom in Hanover, MA using Control Freaks independent front suspension, 4 link rear suspension and adjustable coil over shocks, resulting in dropping the curb weight to under 2,900 lbs. The paint, also un-AMC and perfectly applied, is 2020 Porsche Aventurine Green Metallic which gives off a changing silvery grey to green light-reflecting finish as you walk around the car. 1969 was the apex year for muscle cars coming out of Detroit. We'd hear about all the Plymouth, Dodge, Chevy, Pontiac, Buick; Olds, Ford & Mercury muscle models while AMC had the SC/Rambler & AMX SS shown here that Don brought up-to-date with 21st Century upgrades.

**TOOLS-4-KIDS**

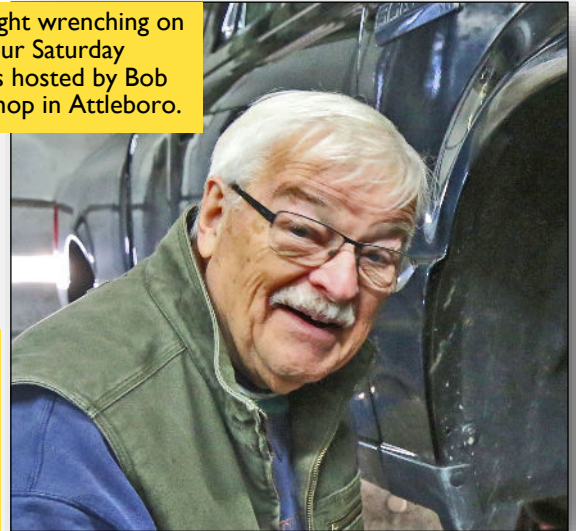

by Rick White (Charity Coordinator)

Tools-4-Kids tools that are collected at our cruises are sorted, and arranged into sets by size, or type of use. Recently we received several boxes of tools donated by club member Ann Cole. These were tools of one of our founding members Don Cole who passed away in January 2023. Don used them to restore several cars in his home garage. Many of these tools are for bodywork. They will be combined with other donated Body tools to help an automotive student from one of our supported tech schools heading into the body repair field. I'm sure Don would be thrilled to see his tools continue in this second life. We thank Ann for this sizable donation and all the cruisers who have donated tools for the TOOLS-4-KIDS program.

Late member Don Cole (right) caught wrenching on his Ranger pickup truck at one of our Saturday morning garage work shop sessions hosted by Bob Hines at his Roberts Automotive shop in Attleboro.

Sampling of recent tools collected and sorted for the TOOLS-4-KIDS program include a hydraulic body/frame jack, sorted sets of open end, box end and ratcheting wrench sets, a pneumatic sander and adjustable body files.
