Board Musings

By Mass Cruisers Board Member Rick White

This month was a busy month for the Cruisers we started off on May 1 with a well-attended cruise, nice and warm and comfortable with a solid 50-50. Two days later we had the Seekonk Speedway show which was also very well attended about 250 cars which is their max goal and plenty of club members to run the show. This year they added burnouts and drag strip runs along with all of the cars and trucks that race there each Sunday running practice laps, which, although there's no trophies to be had, their personal pride competitiveness shows thru. It is certainly fun to watch. On behalf of the Board of Directors we certainly thank everybody that helped in these cruises and look forward to our thank-you race night at the Seekonk Speedway on July 12 this year where we always get treated royally with VIP seating to watch the races and never go home hungry. Ed St Germain has gone above and beyond by showing support for our engine build-off program and inviting all the engine build-off participants and their families to join us on July 12th.

My May schedule also included a speech visitation to each of the three Tech-Voke High Schools that we support with WORKFORCE GRANTS and TOOLS 4 KIDS. To say that it was enlightening would be an understatement. I, along with the fellow Mass Cruisers who joined me, were all taken aback and impressed with the skill and dedication that the instructors have with their students. I enjoyed every minute of it. I presented an interactive speech with posed questions, rewarding the correct answering student with a trip to the tool bag from which could select a new TOOLS 4 KIDS tool. (see related articles on Pages 6&7)

Two of the schools are similar, in that by the senior year, students at Blue Hills and Southeastern Regional generally have plotted their direction into the automotive workforce. The visit to Norfolk Agricultural School was significantly different. Some of the students gravitate towards one direction like diesel or general small engine repair, but the school's approach is to provide well-rounded training in less specialized skill areas like carpentry, resulting in a general knowledge of all trades so they can be an asset in all aspects of a typical working farm or related agricultural endeavors. I came away with a better perspective of how we can help these kids have a better chance for success. I will be bringing to the Board of Directors & our club members suggestions as to how we can best help them in the future. On May 24th we supported the Norfolk Agricultural School Cruise with a good showing resulting in three of our Cruisers leaving with crafted trophies by the school's welding arts students. Rich Armando for his Mustang, Steve Huntington for his Chevy Pickup, and myself for my Camaro. I have no clue as to how they were selected. If Steve hadn't noticed my award in front of my car, I'd have run it over. But I'm still very happy to get it.

Three of our Cruisers left the May 25 Norfolk Aggie Car Show with crafted trophies by the school's welding arts students. Rich Armando for his 1966 Mustang convertible, Steve Huntington for his 1964 Chevy Pickup, and myself for my 1969 Camaro where you can see the my surprise d find-next to the driver side rear tire.

**May 1 Cruise Winner 1956 Chrysler New Yorker**

by John Buchanan

Scott Morell Jr. and his dad at their Milford Auto Sales business in Hopedale, always on the hunt for high quality classics they can sell, found this stunning Tri-tone Geranium Red, Cloud White & Raven Black 1956 Chrysler New Yorker Newport 2-Door Hardtop at the 2024 National AACA Fall Hershey Meet. It was part of the William Boucher Chrysler Collection that was auctioned last year. It underwent a nut & bolt restoration in 2017 which also included upgrading its 254 ci 280 hp HemiV8 engine to Chrysler 300 specs pushing the hp up to 340 ponies. It has the iconic era dash-mounted pushbutton "PowerFlite" automatic transmission. The factory options on this 1 of 4115 produced in 1956 include Power Steering, Power Brakes, Power Seat, AM radio w/ foot control, full gauge package, Clock & Courtesy Lighting. The soft-as-a-glove white leather over coral sculpted brocatelle cloth interior, door panels, carpet & headliner color compliment the exterior paint, unlike much of our modern vehicle interiors do today. The under-hood engine, components and finish are beautifully detailed, and the body panels are strait as an arrow with all plated chrome parts, bumpers and trim have been spectacularly restored and finished. The trunk is beautifully detailed with the correct spare tire and Jack which is usually missing. The undercarriage has been powder-coated black, and all suspension components and hardware were refurbished during the restoration. If I were looking for an Iconic example of a 1950's classic to own, this HEMI powered road beauty would top my wish list, and it is FOR SALE.

Continued on Page 5

Club member Richard DerMarderosian, charged with selecting the Cruise Car of the night, came back with Scott Morrell Jr. and his Hershey AACA Auction find, this 1956 Chrysler New Yorker Newport 2 Door Sedan.

MAY 1 BASS PRO SHOPS CRUISE SPRING BEAUTY

CONTINUED FROM Page 4

The Thursday May 1 Bass Pro Shops cruise turned out to be a perfect spring day to go CRUIZN and to schmooze with like minded enthusiasts. The only problem experienced was some unexpected paving work area in Lot 14 being taped off that's normally occupied by the Mass. Military Vehicle Collectors Club members vehicles and Jeeps. The Attleboro area Hebron Food Pantry was on hand collecting your non-perishable food donations and \$\$\$. The transition away from collecting non-perishable food to \$\$\$ is cutting down on having to sort and trash out-of-date items. Meanwhile, the monetary donations which have ranged from \$20,000—\$30,000 annually, allows the each of the pantries to purchase \$10-\$20 equivalent needed food from the Boston Food Bank for every \$1 donated or to upgrade and maintain needed equipment. The 50-50 collections for the 2025 Technical Vocational workforce grants as well as the Tools -4-Kids program continue to be supported and will be expanded in 2025 as more tools are donated.

Rick White (Red Shirt) & Joe Renaud (Yellow) continue to promote the 50-50 to support the Technical-Vocational H.S. Workforce Grants given to graduating seniors in need. The companion Tools 4 Kids program is also collecting your donated gently used, unneeded and duplicate tools which Rick provides to deserving students entering the workforce.

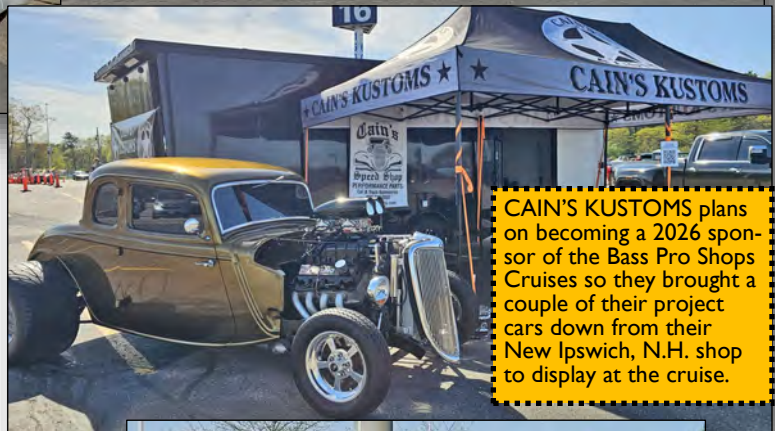

Each cruise our club's front entrance team collects your donations to one of the local area food pantries featured at each of our cruises.

The 2025 edition of our 100% cotton collectible tee shirts in four different colors and sizes SMALL to XXXL are available at the club trailer where you can also get your 50-50 tickets, show and event flyers and general information about becoming a member of the Massachusetts Cruisers Auto Club. Also check out our new improved website:

www.masscruisers.com

CAIN'S KUSTOMS plans on becoming a 2026 sponsor of the Bass Pro Shops Cruises so they brought a couple of their project cars down from their New Ipswich, N.H. shop to display at the cruise.

Our May 1st weather was perfect for top-down CRUIZN to the Bass Pro Shops Cruise at Patriot Place

2025 Workforce Grant Recipients

by Rick White

It is with great pleasure that we announce the recipients of the **2025 Work Force Grants** which are provided by your 50-50 donations that were collected at the 2024 bi-weekly Bass Pro Shops cruises. Grants went to the following students who will be graduating this June. **NORFOLK COUNTY AGRICULTURAL H.S.** Emma Lally. Emma is a graduating student who will be attending SUNY COBLESKILL in New York in the fall for Diesel Technology. **BLUE HILLS REGIONAL TECHNICAL SCHOOL** Maria Arcieri. Maria is a graduating student in the Automotive Technology program and has a job awaiting her at Jack Madden Ford in Norwood. They will be sending Maria to four years of Ford dealership sponsored advanced service repair school to become a highly trained automotive technician. **SOUTHEASTERN REGIONAL VOCATIONAL H.S.** Leo Gareri is a graduating student in Collision repair. Luis has a job waiting for him at a local auto body shop, Modern Auto body in Brockton.

May 9 Blue Hills Regional Technical H.S.

May 19 Norfolk County Agricultural H.S.

May 13 Southeastern Regional Vocational H.S.

Rick White, above, Mass Cruisers 50-50 Workforce Grant & Tools 4 Kids Charity Coordinator spent several days in May talking to students at our three beneficiary Vocational Technical High Schools

As part of Rick's talk to students about their future plans on entering the automotive trades workforce following graduation, students that answered correctly to several of Rick's "tricks-of-the-trade" questions posed during his talk got to pick out a new tool of their own from his bag of "Tools 4 Kids".

2025 Tools 4 Kids Program Tool Distribution

CONTINUED FROM Page

After collecting two years of donated tools we had enough tools to distribute eight sets of good start-up set of gently used tools to Tech-Voke students who will be graduating this June. The instructors selected students who are definitely going into the automotive workforce. We then try do our best to give them tools suited for their chosen field within the industry from the ones donated at our bi-weekly Bass Pro Shops cruises. We then supplement the tool sets with a few new tools that help complete a set of basic entry tools with any cash donations that are made to the program. Our goal is to give them the best tools for success in their chosen field..

The eight **2025 TOOLS 4 KIDS** tools distributions, assembled into complete sets that were then presented to students at the following schools as follows: **BLUE HILLS REGIONAL:** Timothy Moran received collision Repair/general and auto body repair tools. Tomothy has a job waiting for him at Ace Auto Body in Dorchester. Maria Arcieri, mentioned previously as working at Jack Madden Ford, received general repair tools and a pneumatic impact tool, **SOUTHEASTERN REGIONAL;** Elihoenai Yisreal received Diesel repair tools specifically set up with larger tools needed for Deisel repair. He will be working for Allegiance Truck Walpole. Aidan Bar-bosh received general auto Repair tools and Jason Perkins also received general auto Repair tools. **NOR-FOLK AGGIE:** Joe Catto, Owen Getchell and Emilly Battell each received general auto repair tools Emily has a job working in a local collision repair shop.

We thank all the Bass Pro Shops cruisers that have donated tools and cash. All the donated tools can be used. However It came to pass that we get mostly ASE inch tools, although definitely needed, I never considered that the vast majority of modern being built utilize metric instead of SAE fasteners. Metric tools we most likely have to purchase in the future. Anyone with tool contacts please contact me. My hope is that we can get sponsors or donors for these metric and other seldom donated tools like water pump pliers. All and all, I'm very happy with the success of our charity programs so far. But, as with everything we start, there's plenty of room for improvement.

An example of one of the eight "Tools 4 Kids" automotive hand tool sets is pictured on the table above. Rick is able to put together the tool kits from the donated used tools gathered at our Bass Pro Shops cruises. Look for the TOOLS 4 KIDS donation bucket located at the Mass Cruisers trailer where you can also get your 50-50 tickets that support the Tech-Voke Workforce Grant program,

May 10 Wilbraham Hillclimb

by John Buchanan

Early morning drizzle didn't dampen the spirits of the 20 or so registered Hillclimb race car and motorcycle participants, over 300 show car owners, craft vendors or the spectators at this year's 2025 Wilbraham Hillclimb. Always a treat for me to take a long distance morning cruise out to the Palmer area from my Attleboro home to watch the owners of these old timer race cars and classics being challenged by the mile long 23 percent grade hill on Monson Road in Wilbraham. Historically, the Hillclimb originally was used as the unofficial proving ground for early Massachusetts auto manufacturers to test their vehicles against one another by seeing who could make it to the top in the fastest time. And like those early automotive pioneers, the urge to race to the hilltop to record their fastest time is still alive thanks to the efforts of Stonewall Insurance owner Jeff DeMarey and founder of the Hillclimb sponsor, Springfield to Boston Education Foundation, whose mission is to educate students and young adults about antique transportation. The use of onsite QR Code posters throughout the event footprint from the Wilbraham Monson Academy show registration area and along the half mile stretch of Main Street to the base of Monson Road where the start of the Hillclimb takes place makes it easy for everyone to check the Hillclimb race participants recorded climb times throughout the morning and early afternoon while enjoying the other ongoing activities like looking over all the show cars and perusing the craft vendors and partaking of the food truck offerings. Wayne Carini is one of the industry celebrity vintage race car owners that enjoy the challenge, this year driving his restored Fiat powered 1958 Stanguellini Monoposto Formula Junior that had

never been raced before.

Join us again next May for a different kind of race car event at the 2026 Wilbraham Hillclimb. You won't regret it.

Not only do you get to watch the cars attempt their Hillclimb runs, you will see them returning on Main Street to do it all over again.

We strive to educate students on all levels about antique transportation.

M.A.A.C. Annual Meeting set for June 11

by John Buchanan

June 11, 6:30 PM at the historic Congregational Parish (Unitarian) Church in Norton Center (2 West Main Street) is the date set for the **2025 Annual Massachusetts Association of Auto Clubs** annual meeting.

We'd like to see more club representatives and interested individual hobbyists attend this meeting as we review and monitor the status of legislation that the bi-annual 194th General Court posted and is in process of holding public hearings. As in past years, we have identified legislation that, when passed, could impact our hobby interests. The list is posted on the M.A.A.C. website [Bills of Interest – Massachusetts Association of Auto Clubs](#). There are four troubling bills we've identified which we oppose and may need to testify against once the public hearings dates are posted.

William Ellis, who has served as President of M.A.A.C. for the past 12 years (2013–2025), is unable to continue in that capacity so there is a search for his replacement. William's expertise in digital systems software at IBM brought a high level of information gathering on critical legislation and Registry of Motor Vehicle data through the Freedom of Information Act that allowed M.A.A.C. to become better informed and prepared when filing testimony for or against legislation at the State House public hearings. This also allowed M.A.A.C. to rally support from our car club members in advance when testifying at public hearings. William said that he will continue to provide his expertise and assistance but no longer has the time to effectively lead M.A.A.C. There is also a M.A.A.C. Board of Director's vacancy that we'd also like to fill, so if you are interested in becoming an active part of this important group of automotive enthusiasts, let one of our officers or board members know.

To tease you a bit, check out Senate Bill **S.1716**. We **OPPOSE** another attempt to regulate the after market exhaust systems in our cars by declaring them illegal if they exceed 75dB. Note that highway tire noise can typically range above 75dB. Also we are seeing increased interest in understanding what impact **S.2246** might have as it attempts to regulate the amount of highway usage miles in meeting mandated emissions goals, so this bill was recently added to our **WATCH** list. So come on down to Norton town to June 11 MAAC meeting.

William Ellis, President of M.A.A.C. addresses the annual Gathering of Clubs held on May 10 at the Westford Regency in Westford, MA.
