Board Musings

By Rich Armando

The January 20th meeting was our club's annual business meeting and I would have to say things went extremely well. As in the past, Choice Catering brothers, Ken & Tim, did a fine job. There was a great selection and everything tasted good. This was all made possible due to the effort of John Buchanan who was in charge of organizing this night. John thank you for doing this.

It appeared everyone there enjoyed themselves. I felt bad when I had to stop everyone from socializing in order to call the official annual meeting to order. Congratulations, Steve Vining. He was the recipient of an award that the club gives to any member who has been a member for 25 years. Steve has stayed active doing various tasks for the club throughout the years, beginning with establishing our club's www.masscruisers.com website presence through the Hemmings car club hosting program and as the club photographer up until recently. Thank you for your contributions over the past 25 years Steve. Diane Thornton who tracks club membership longevity also used her creativity talents by the putting together a memory lane shadow box to present to Steve.

Bob Hines, the club's previous "2024 Cruiser of the Year" honoree, was responsible for the challenging task of picking the "2025 Cruiser of the Year" a responsibility each designee has. Any given year there is usually more than one member who could have been selected. Unfortunately only one member per year is picked and to make it more challenging, previous honorees' cannot be selected. The "2025 Cruiser of the Year" goes to Kevin Rushlow. As you know Kevin is our club's Treasurer who puts countless hours in making sure 2+2 always equal 4. He also can be seen at any given cruise night doing his treasurers duties along with manning an exit gate. Now that Kevin is retired, he and wife Deb have been more actively cruising with the club to events in their 1978 Cadillac El Dorado & 1970 Monte Carlo. Congratulations for being picked as Cruiser of the year. Kevin's job is to make his selection a year from now for the 2026 Cruiser of the Year. Will it be you? By the way Kevin will not take a bribe so you must earn it thru club participation.

For those of you who could not attend the business meeting, you missed an opportunity to meet 4 new members who attended their first meeting. Once again let's welcome Joanne Ciesluk, Brian Gately, and Michael & Cheryl Toupin. All four have expressed an interest in helping out at our cruise nights. If you did not meet them on the 20th please introduce yourself to them at one of the cruise nights.

February 17th meeting will feature a presentation from the owners of Rhode Island Motor Sports who are also one of our major sponsors for our Bass Pro Shops Cruises. Pizza will be served at 6:00 PM and their presentation will start at 6:30. We are still following the Bass Pro's winter hours so we must be out of the building by 8:00 pm. Hopefully you can make it.

Editor's Musing

By John Buchanan EDITORIAL

I heard through the grapevine the Early Ford V8 Club of New England will not be hosting what would have been their 54th Annual Wings & Wheels Spring Tune-Up at the Fitchburg Airport in April. Although the Spring Tune-Up is not the last of these popular outdoor automotive swap meets that remain true to the hobby by attracting hard core automotive enthusiasts, this was an annual season opening event that everyone looked forward to attending. I was told they could no longer muster enough volunteers necessary to properly run the event. It's true that many of vintage vehicle owners are aging out and/or are physically unable to provide the energy a large successful event like Spring Tune-Up required. Perhaps another group will see the value to continue the tradition as this was always the one event where we could take out our favorite rides for an early spring shake-down cruise after a long winter's nap.

Jan. 17 Mike's Muscle Car Collection Follow-up

by John Buchanan

Clubmembers that were unable to attend the December 20 luncheon tour of Mike Camara's Muscle Car Collection were invited to attend a follow-up tour on Saturday January 17, the same record setting day when \$259 million dollar sales in collector car history was being set at the Mecum Kissimmee Auction. We didn't miss that either during the tour of Mike's collection as we were able to follow the auction live on Mike's huge man-cave TV when the 46 Bachman Ferrari collection was being auctioned off and contributing \$125 million to that single-day record. Of course, Mike always the gracious host, provided the details of how each of the cars in his growing collection of 30 cars came to him. And questioned about, which one's he drives, he said, "all of them." They are all registered and each one goes through a rigorous check

for any problem areas that need to be addressed before they are placed into regular availability for his own personal use. We all experience that situation of having to clean up our latest purchased ride so that we are comfortable taking it for a long anticipated road trip or presentation at a competitive car show.

The three separate collection areas club members are treated to are the main Muscle Car Collection area of Ford, GM & Mopar muscle, dominated by Mustangs (above), the Corvette showroom area (right & below), and service garage area where overflow parking, detailing and service is performed.

2026 MECUM KISSIMMEE RESULTS

By Fred Tierney

Although I could not make it to the 2026 Mecum Kissimmee at Osceola Heritage Park personally this year, my brother-in-law Richard Paglierani who serves as this annual event photographer for me, was able to give us some of his favorite picks ahead of the cars hitting the auction block. What I'm doing here is to see how well they did following their few minutes of exposure as they crossed the live auction block. Of course, I didn't expect Richard or any of my picks of interest for that matter, to be the highest bid, rarest model, lowest mileage or most interest provenance vehicle among the over 4,500 vehicles being auctioned over the January 6-18, 12 days of auction activity.

**1962 Ferrari 250 GTO
\$38,500,000**

**1904 Thomas Flyer

2026 Big E AUTOPARTS Swap & Sell

by John Buchanan

Some snow overnight on Saturday and the threat of more snow Sunday afternoon along with the Drake Maye led Patriots afternoon home game hosting the Houston Oilers at Gillette Stadium seemed to have kept the normally heavy Sunday attendance at this year's AUTOPARTS Swap & Sell meet at the Big E Home Living Center down from past swaps. This year I brought along my 13 year old great-grandson to experience his first ever swap meet and he took to it like a duck does to water. He had his own Christmas money to spend and he did pretty well for himself. As for me, I picked up a couple of metric 1/4-3/8 drive ratchet sets, channel lock & regular pliers for Rick White's "Tools 4 Kids" program as well as a Model A Ford music album cover for my cellar workshop wall art collection. As usual there are lots of tool & hardware vendors, along with some nice cars for sale, but my favorite unique item at this year's event for every auto enthusiast's man cave was a custom built front end sofa; pictured below.

What great idea for a man cave sofa!

ABE'S GARAGE New Year Build Open House

by John Buchanan

The theme for Abe's Garage monthly January 18 Car Craft open house was "New Year New Build" and I did come across a couple of new build's getting underway by their owners that are worth following up at the February 22 and March 22 Car Craft open houses. One is a traditional restoration project of a 1968 Cadillac DeVille being undertaken by its new owner and the other is a mind-blowing project build of a 2,200 equivalent HP SL-C Superlite EV independent all-wheel drive sports car. What makes the SL-C Superlite EV even more interesting is the owner, Bob, who designed all the custom aluminum hardware on CAD and machined them on his three axis milling machine. And, for the custom designed non-metallic parts, he used his 3-D printer to make them. Bob was not around for most of the open house but I did meet him as he was lugging in boxes of those newly machined aluminum parts that were fresh from having a hard ceramic coating finish done to them. Can't wait to see the progress of these two projects at the next open house when Car Comics with Zenith Comics will also be there, something my great-grandson Brad, who loves going to Abe's with me, will surly be interested in.

ABOVE: Bob's SL-C Superlite all wheel drive EV project build, powered by 4 used TESLA S 680 PM drive motors, is going to be worth following.
BELOW: The 1968 Cadillac DeVille convertible restoration project is taking place next door to the ongoing 1986 Jeep GJ restoration build project in the Garage lower level.

35th ANNUAL BUSINESS MEETING

by John Buchanan

Our club by-laws require us to hold an Annual Business Meeting which we've traditionally done at the January Meeting where we can introduce the 2026 club officers and Board members as well as the different committees and assigned committee leaders. This meeting is also where our newest club members can meet, greet and socialize with everyone. To ensure there is a good membership turnout for the official annual business meeting which would normally be a ho-hum event for auto enthusiasts, we have Choice Catering out of Bellingham set up a sumptuous hot buffet to satisfy our palates and also include some other non-official business meeting features, like honoring the "Mass. Cruiser of the Year Award" recipient and recognize and honor any new 25 year anniversary members. *Continued on Page 9*

In another non-business meeting recognition moment was brought to our attention by our Charitable Committee Chair Rick White; it was an unusual donation to the "TOOLS-4-KIDS" program made by Bob "IKE" Eisenhauer. Well, it was his daughter who had purchased one of those \$200 Amazon return pallets of curated customer-return, overstock, or damaged items. Bob noticed one item she got in the return pallet she purchased was a box of 20 digital display electric solder irons and asked what she planned to do with them. She said she didn't want them and was going to throw them out. Bob asked if he could have them for the TOOLS-4-KIDS program. So the box irons showed up with "IKE" at the meeting. I think every back yard mechanic has an electric soldering iron or gun tucked away in their tool chest along with spool or two of solder, some flux and a dried up wet sponge.

Rick White thanks Bob "IKE" Eisenhauer for the TOOLS-4-KIDS donation of 20 digital display electric soldering irons.

Choice Catering out of Bellingham has got the annual spread of steak tips, calzones, lasagna, salad & drinks ot our satisfaction once again.

ANNUAL FACTORY FIVE RACING VISIT

Continued from Page 8

Every year at this time Fred Tierney and I try to personally visit as many of our Bass Pro Shops Cruise sponsors as time and opportunity allow. One of the first of many of our long time sponsors has been Factory Five Racing in Wareham. It was at the 2012 Goodguys East Coast Nationals at the Big E in W. Springfield that I met Dave Smith at his Factory Five Racing display and talked to him being a rally point host for our a new U.S. Route 6 Cruise weekend from Seekonk to Provincetown on Saturday of the October Columbus Day weekend. He was enthusiastically on board for the P-Town cruise and he then came to be one of our Bass Pro Shops Cruise sponsors the following year in 2013. It was held during the eight year run of the P-Town cruise weekends that I made it a habit of stopping in at Factory Five to review the upcoming cruise plans for P-Town as well as our Bass Pro Cruise schedule for a Factory Five Forum date. That's when I would take a peek at what was new in the Factory Five showroom. I stopped in this past Thursday, but most of the F5R crew was out of town with four of the F5R XTF Pre-Runner Trucks for the King of the Hammers Mojave Desert off-road race in CA so Dave Lindsey did the honors of showing me around.

Tim Allen's Military Tribute 35 Hot Rod Truck was in the shop for some final tweaks. Tim wasn't so sure about the hub caps
